

PROTECTIVE OIL N° 4 **(MIL-PRF-16173E GRADE 4)**

Corrosion Preventive Compound Transparent, non-tacky film
Protects Metals Against Rust and Corrosion for Indoor & Outdoor Storage

Description:

PROTECTIVE OIL N° 4 is a corrosion preventive compound specially designed to protect metals against rust and corrosion for indoor and outdoor storage, and shipment. When used as recommended **PROTECTIVE OIL N° 4** is easy and economical to apply and remove and provides a durable, long lasting, non-tacky coating suitable for protecting metal surfaces against the elements of corrosive environment.

Specifications:

Meets requirements of U.S. Military Specification MIL-PRF-16173E GRADE 4, transparent non-tacky film.

Intended Usage:

a) For general purpose indoor and limited outdoor preservation of corrodible metals with or without an overwrap and where handling, stacking and counting requires a tack-free coating.

b) For storage protection of precision parts, machine tools, pistons, valves and where a transparent coating is required in addition to properties indicated in item (a) above.

c) For protection of machinery and parts designed for export and where salt spray contamination is likely to occur.

d) Where there is no requirement for miscibility with lubricating oil and where ease of removal with Stoddard's solvent (P-D-680) is important.

Directions for Use:

PROTECTIVE OIL N° 4 is used in full strength by spray, immersion or swab. Allow **PROTECTIVE OIL N° 4** to dry to form a transparent non-tacky film, protective anti-corrosive film.

Product Removal:

PROTECTIVE OIL N° 4 is removed from parts by solvent wiping, steam gun cleaning or alkaline hot tank immersion.

Caution:

Avoid contact with skin and eyes. For further information refer to Material Safety Data Sheet (MSDS).

Packaging:

PROTECTIVE OIL N° 4 is offered in 4, 13, 20 and 30 liter pails or 210 liter drums.
